THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF 1950, CH. 36, SEC. 3 AND 4, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENT TO ANY PERSON TO WHOM IT IS NOT AUTHORIZED TO BE FURNISHED BY LAW, REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. It was noted in mid-September 1950 that the wooden masts of the radio station located southeast of Lohme had been replaced by steel towers about 35 meters high. A permanent building is also being erected to replace the wooden structure now in use.
2. German technicians, radio operators and laborers were employed at the station in late September 1950. (1)
3. Operations at the radio receiving station in Glowe are being conducted in a makeshift way because of lack of space. An additional room was equipped for radio service for fishing craft. The receiving, alternate and transmitting frequencies are 1,650, 1,625 and 2,300 kc respectively. The transmitters used in Glowe are an 300-watt and an 80-watt transmitter furnished by the RFT (Radio- und Fernmelde-Technik) in Leipzig. Plans call for the installation of two long-wave and two short-wave transmitters in Glowe. (2) A DF station is located in Stubbenkammer. (3)
4. The Soviet Zone Postal and Telecommunications Ministry, within the framework of the five-year plan intends in 1951 to construct a DF network from Wismar to Bansin via Arkona, with its central station in Glowe. Technical details have not yet been decided upon. The necessary money has not been allocated and the project has not yet been cleared by the SCC.

25X1

Comments.

- (1) The radio station in Lohme is listed in the international tabulation of marine radio stations. See Annex for sketch showing location and layout of station.
- (2) The radio reception station in Glowe also conducts international marine radio operations.
- (3) The DF station in Stubbenkammer is a radio beacon operating for shipping.
